

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph on page 6, spanning lines 14-15 as follows:

AI
Fig. 5 is an exploded perspective view of the terminal connector shown in Fig. [1] 4.

Please amend the paragraph on page 8, spanning lines 6-14 as follows:

AB
The conductors 15 are ~~subjected to insulation displacement connection~~ connected to the insulation displacing blades 22 in such a manner that the conductors 15 respectively correspond to the insulation displacing blades 22 of the connector terminal, and a portion of the flat cable 13 located away from its tip by an appropriate distance is pressed against the rear end face of the connector body.
